

ALLPLASTICS ENGINEERING PTY

Australia's Widest Range of Thermoplastics & Associated Services

An entirely new product, **Perspex™ Pearlescent**, has been specially created to offer an attractive new effect to designers and specifiers whether in the world of POS (point of sale), display and visual communications, or in other areas of design, such as furniture and interiors.

Formulated to provide a range of products all with a softly shimmering lustre, Pearlescent gives an inviting almost luminous effect which can be further enhanced by altering the light source and direction.

Colour Range:

1. Caramel Gold
2. Platinum
3. Azure
4. Graphite
5. Graphite
6. Candy
7. Pearl
8. Copper

Perspex™ Pearlescent carries a **10 year guarantee** that covers both Internal and External applications and is available in a range of sheets sizes and thicknesses.

All sheet sizes in Pearlescent Perspex™ are 3050 mm x 2030 mm.

-  Subtle changes in it's appearance can be achieved by altering light source and direction
-  Eight designer colours
-  Ten year guarantee
-  Ideal for kitchen splashbacks (Not suitable near direct heat source)
