

Safety Clean

A SAFE AND FAST MULTIPURPOSE SOLVENT

- Leaves no oily film.
- Fast, thorough and safe degreasing and cleaning.
- Can be used on painted surfaces, vinyl, glass, rubber formica and plastics.
- Fast drying.
- Very economical.
- Removes adhesives, sealants, oil, grease, silicon, wax, tar, paraffin, printing ink,
- Recommended to be used with all NOVATIO adhesives and sealants.

General information

SAFETY CLEAN is a safe and fast multipurpose solvent-degreaser that leaves no oily film. SAFETY CLEAN is a 100% aliphatic hydrocarbon solvent that contains no recycled solvents.

Technical information and packaging

Bulk package:

Boiling point/boiling range °C: 130 - 166.
Vapour pressure/20°C Pa: 853000.
Relative density/20°C: 0,764.
Physical condition/20°C: liquid.
Flammibility °C: 24.
Auto-ignition °C: 200.
Water-solubility: not soluble.
Odour: characteristic.

SAFETY CLEAN is safe in use on most plastics as well as on painted surfaces, vinyl en glass.

Dynamic Viscosity mPa.s/20°C: 1.
Kinematic Viscosity, mm²/s/20°C: 1.
VOS content %: 100.
VOS content g/l: 710.

Specific technical information for each packaging: please consult the safety data sheet.

Always rinse the cleaned surface with water.

Applications and use

AUTOMOTIVE

- degreasing and cleaning mechanical parts, motor, brakes, suspension
- cleaning tools and workshop equipment - does not attack plastics
- removal of stickers of masking tape adhesive residues
- removal of previous grease layers before relubricating, e.g. door hinges
- SAFETY CLEAN does not corrode the paint
- removal of trims and bumper strips without damaging
- removal of tar and other coating stains from both bodywork and plastic parts
- removal of grease and oil stains from seat upholstery (always test first for colourfastness)
- finishing of body joints sealed with NOVATIO sealants
- cleaning of paint and undercoat before spray-painting (always use a 2-cloth system)
- degreasing and cleaning of all surfaces before using NOVATIO adhesives and sealants

INDUSTRY

- degreasing and cleaning mechanical parts of motors and machines
- degreasing and cleaning tools and workshop equipment, hand tools and machines
- cleaning rubber rolls in printers
- quick and safe degreasing of ferrous and non-ferrous metals before bonding or painting
- SAFETY CLEAN will not form an oxide layer with light metals
- removal of stickers or labels adhesive residues
- removal of grease and oil stains from textile (always test first the colour fastness)
- removal of contact adhesive residues on formica in kitchen and furniture manufacturing
- finishing of joints sealed with NOVATIO SEALBOND MS60 and NOVABOND 2
- removal of previous grease and oil layers before relubricating
- degreasing and cleaning of all surfaces before using NOVATIO adhesives and sealants
