

# The Crescent Series

Impact Protection

The unique shapes used in our Crescent Series handrails and wall guards provides the perfect accent to create a softer, friendlier environment while providing a high level of impact protection. The curved shape gives designers and architects a fresh alternative to the traditional rectangular designs so often found in wall protection. Use WG-5/WG-7 wall guards and BR-600V/BR-600C handrails together in a coordinated, sleek design.

Corporation

# The Crescent Series

## Corporate Information

**Our vision & warranty**  
Pawling Corporation pledges to employ all its resources to focus on customer satisfaction and continual improvement. We strive to provide superior quality products and services that meet or exceed your expectations. We want to be your first choice for a wide variety of architectural products.

Pawling stands behind every sale with our Limited Lifetime Warranty. We warrant all standard catalog products against defect in materials and workmanship when installed in conformance with the Pawling Corporation Installation Instructions.

The  
Crescent  
Series

Each of these profiles is also available with vertical design accents that allow you to create eye-pleasing patterns and color schemes throughout your facility. The WG-5C and WG-7C wall guards also come with our unique Red-E-Clip™ retainer clips.
