

**Pawling Corporation is
giving you more options
to help meet your
design requirements.**

With a growing color palette, new products, and more material choices, we are expanding our product lines in response to your feedback. Our distinctive Impact Protection and Entrance Matting products are now available with more options than ever before.

Six vibrant *new colors*

Pawling Corporation is growing its color choices to help meet our customer's demands. Based on your feedback we've selected these colors to help meet your design needs. Through the years we've developed these colors to meet custom color requests. Now these colors are available as standard, which means no custom color fees and faster lead times.

Carnival Red
#337

Monarch
#255

Dandelion
#421

Amazon
#175

Bermuda
#281

Plumberry
#234

These six new colors are intended to compliment our 60 standard colors and give designers and architects more options to meet their design requirements. Contact Pawling today for more information about these new colors:

New products

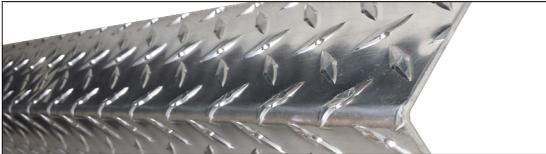

EM-70 Tire
Mat Series

This new series of entrance mats feature recycled rubber from airplane tires. With woven nylon fibers for maximum absorption, this entrance mat can be flipped over for double the product life.

CRS-102
Steri-Guard™
Crash Rails

Designed to provide nearly indestructible protection in lab or hospital facilities, our Steri-Guard™ Stainless Steel Crash Rails are an ideal choice for environments where sterility is a concern. We now offer this popular product with a 2" high rail.

Diamond
Plate
Aluminum

Our corner guards, kick plates, sheet, rub rails and crash rails are now offered in 3003 aluminum diamond plate. Our standard gauge is .125", with other thicknesses available.

Suede
Textured Wall
Covering

Pawling's Pro-Tek® rigid wall covering is now available with a Suede textured finish. Choose from our standard PVC or PETG compound, a variety of sheet sizes and rolls, any of our standard colors or custom color you can imagine.

Pro-Tek® NXT

The *New Standard* In Impact Protection

Pawling's Pro-Tek® NXT is a line of PVC free impact protection products created from a PETG compound. Pro-Tek® NXT is made from a BPT free, class A, non-halogenated fire retardant material. It is available in all our 60 standard colors with custom color matching to allow for limitless design possibilities.

Pro-Tek® NXT products are offered in all our profiles and are interchangeable with older models. All of our popular handrails, wall guards, corner guards and wall coverings are available and come with our limited lifetime warranty.
