

# ACRYFORM<sup>®</sup>

*The great alternative to glass*

Slumped Acrylic Sheet | High class finish

[www.acryform.com.au](http://www.acryform.com.au)

# Acryform

Privacy Screen - Ocean texture

Shower - Lowtide texture

Acryform® is a high class decorative slumped acrylic sheet designed for use in interior or exterior, commercial or residential fit outs. It is difficult for the practiced eye to differentiate between slumped glass and Acryform®. This makes Acryform® the choice above similar glass products due to its ease of handling, price and delivery time.

## Typical Installations

Kitchen splashbacks, benchtops and feature panels.

Bathroom splashbacks, privacy screens, vanity tops and shelving. Interior and exterior decorative features.

Interior and exterior balustrading and pool fencing.

All aspects of office and retail fit-outs.

Ceiling lighting effects and diffusers.

Blow

Dreamtime

Ocean

Rough

Sandstone

Stormy

Lowtide

Acryform® is available in the the ten shown patterns.

Dreamtime, wave and lowtide are specifically designed for applications such as splashbacks that require a flat profile.

We offer custom designed textures created on request. Non standard textures require an extended manufacturing period for pattern production.

# Custom Graphics Signage

Custom logo (Backsprayed) - Ocean texture

Custom logo (Backsprayed) - Dreamtime texture

Special order three dimensional embossed graphics can be incorporated during the manufacture of Acryform®.

Company logos, lettering, murals and many other creations from the designer's imagination can be embossed for stunning eye-catching results.

The stability of Acryform® allows the application of acrylic lacquer, enamel, sandblasting (sprayed effect) and vinyl for lettering and graphics.

With the optical quality of glass, Acryform® illuminates magnificently.

Balustrating - Marine Tint

Water Feature - Dreamtime Texture

Food Stand in Acryform

Pool Fence- Sandstone texture

Cold formed feature - Rough texture

Acryform® is available in thicknesses of 10mm, 6mm, and 4.5mm. The standard sheet size is: 2800mm x 1800mm (9'2" x 6').

Acryform® is easily fabricated to create complex forms and enclosures.

Acryform® is most popular in the "marine tint" which gives its intrinsic glass look. This lightweight material can be cut to any shape, drilled, cold radius, fabricated, thermal curved, line bent (heat folded), and handled with ease, both at the factory and on site.

Other coloured tints and solid colours are available upon request.

The sheet is designed specifically for the partitioning / balustrade market as a better alternative to glass..

Splashback - Backsprayed Dreamtime texture

Assorted fixing options

Architectural standoff

## Fixings

Stainless steel standoffs, balustrade brackets and wire rope systems are available giving you a floated or suspended look to suit your Acryform®.
